

◆ FEATURES

- Reduce energy consumption and operating costs by 70% or more
- Maintenance free operation - lasts up to 10 to 20 times longer than conventional lighting
- No UV or IR and no RF interference
- Environmentally friendly - fully recyclable, no mercury or other hazardous material
- 5 year warranty

Linear LED Fixtures

Emium linear LED fixtures offer a cost-effective, energy-efficient lighting crossover solution that combines aesthetic appeal, quality, and professional level performance for a wide variety of environments and applications.

Ideal for commercial environments demanding high visibility, factory and warehouse work stations, and retail drug and grocery store isles.

The waterproof "TP" version is an excellent replacement for fluorescent vapor tight fixtures. Their IP65 rating make them impervious to the elements (water, dust, insects, etc.). Can be use in virtually any environment.

We carry a complete line of products to meet all types of commercial needs. Our products are engineered to install very simply and make the transition from HID or fluorescent lighting very cost-effective.

50,000 hrs rated life

5 Year Warranty

Features end to end link-ability
