SPECIALTY LIGHTING

Continuous Run LED Grocery Aisle Fixture

5 Year Full Product Warranty
50,000 hrs rated life

FEATURES

Emium CRF LED aisle fixtures are designed to light vertical spaces in supermarkets and other commercial environments requiring long continuous runs of aisle lighting.

For lighting layouts that position luminaires in the middle of an aisle, the Emium CRF uses advanced optics to direct light in a way that provides uniform vertical foot candles on every shelf for maximum merchandising impact.

Emium carries a complete line of products to meet all types of commercial needs. Our products are engineered to install very simply and make the transition from HID or fluorescent lighting to LED technology very cost-effective.

Seamless continuous connection without gaps or unsightly seams

Connect up to 90 4 ft. units @277VAC

Special optical design provides optimal product visibility

Available in 3 housing finishes: white, black and powder grey

2 installation options: suspended or surface mount

High lumen lighting efficiency up to 150LM/W.

5 year warranty

50,000 hrs. rated life

- Seamless Beautiful Light
- Energy Efficient
- Long Life
- Maintenance Free LED
