The Emium slim angle adjustable wall pack is available in four wattage options for a variety of applications including building perimeter, entrances, stairways and security lighting. The WP10 series of luminaries provides a low-profile architectural style with the power of bright, energy efficient LEDs. It has a rugged aluminum construction with multi-mount capabilities. 0° to +90° tilt adjustments.

Maintenance free operation - lasts 10+ times longer than conventional lighting.

Photocell option is available.

0-10V dimming capability.

## PHOTOMETRICS

[Graph showing photometric data for the lighting fixture]
Emium B-G style 25W LED lamps are ideal lighting solutions for commercial bollard, post top, low bay and other similar retrofit applications.

The 25 watt LED light output of 3,625 lumens will quite sufficiently replace a 100W MH or 200W incandescent lamp, while reducing energy consumption by 75% or more.

Lamp is equipped with special heat-dissipation design for higher energy efficiency and longer lifespan.

An optional lamp extender is available for use in larger fixtures.

**50,000 hours rated life**

**Ambient Temperature:** Suitable for use in -15°F to 113°F ambient temperatures.

**Thermal Management:** Independently developed heat sink, cast aluminum heat dissipation.

**Housing:** One-piece, die-formed aluminum housing and PC material shell, sealed by silicone ring.

**Lens:** Polycarbonate lens material

**Finish:** Environmentally friendly polyester powder coatings are formulated for high-durability and long-lasting color, and contains no VOC or toxic heavy metals.

**Green Technology:** Mercury and UV free. RoHS compliant components.

Solid State Lighting
LED Wall Packs

5 Year Full Product Warranty

Wall mounted light fixtures for general exterior lighting applications. Ideal for commercial buildings, condominiums, hotels, museums, galleries, retail stores, plazas, restaurants, etc.

A variety of styles and light output levels available to accommodate any application.

IP65 rated, making them impervious to the elements (water, dust, insects, etc.)

Reduce energy consumption and operating costs by 80% or more

Maintenance free operation - lasts up to 10 to 20 times longer than conventional lighting

Available photocell sensor

No UV or IR and no RF interference

Environmentally friendly - fully recyclable, no mercury or other hazardous material

Canopy LED light fixtures from Emium are ideal for parking structures, storage areas, shopping area walkways, entryways, and low-level security areas.

Reduces energy consumption by up to 80% compared to traditional light sources.

Available in dark bronze, black, or white housing.

Easy to install, no maintenance. Provides long-lasting uniform illumination.

Rated operating temperatures: -40°F to 104°F

IP65, UL and wet location qualified.

Features:

- Sealed die-casting profile for indoor and outdoor applications.
- Voltage - 120-277V & 347-480V option
- Lumen output from 3750-8000lm with efficacy up to 139lm/W.
- Provide with a PIR sensor ideal for parking garage and optional for emergency battery.
- Can replace 100W MH-250W MH.
- Operating temperature: -40°F to 104°F
- UL wet location listed and DLC qualified.

Commercial LED Flood Light
(EL-MS-FL Series)

The EL-MS-FL luminaire is ideal for lighting public buildings, condominiums, retail and entertainment venues, hotels, commercial signs, landscaping, etc.

Flood series offers a high performance energy saving LED lighting solution designed with optical versatility and a slim low profile design. Its rugged watertight IP66 housing makes it impervious to the harshest of environments.

**Construction**
- Housing is made from die case aluminum that is pre-treated and powder-coated to meet the most rugged industry standards.
- Door frame features an integral accessory channel for the mounting of optional light control accessories.
- Vented housing isolates LED module from driver, maximizing product life and performance.
- Door frame seals to housing with a continuous extruded silicone gasket.

**Optics**
- Optics (NEMA Type): 7H*6V.
- Scalable Lumen Packages from 1,950 to 26,000 Lumens.
- Provides the best combination of vertical and horizontal illumination while reducing light behind the poles.
- High performance acrylic optic securely attached to internal heat sink for maximum thermal dissipation.

Commercial LED Mini Flood Light
(EL-MS-MFL Series)

5 Year Full Product Warranty

IP66 rated for harsh and wet environments.

The Emium mini-flood luminaire is ideal for lighting smaller, tighter areas surrounding public, retail, and hospitality spaces, commercial signs, and landscaping.

Flood series offers a high performance LED lighting in a slim, small package. Its rugged cast aluminum housing features an integral, watertight LED driver compartment and high performance aluminum heat sinks. IP66 rated for harsh and wet environments.

FEATURES

- Rugged aluminum housing with UV resistant powder coat finish offers outstanding corrosion protection.
- Lumen output 1500-5400lm with efficacy to 120lm/W
- 3 installation options: 1/2” knuckle (Standard), trunnion, or wall mount
- Wide Flood beam spread 7H x 7V
- Long life LEDs lasting up to 50,000 hours
- Fixtures are suitable for use in ambient from -40°C to 45°C (-40°F ~ 113°F).
- UL wet location listed and DLC qualified

MOUNTING

1/2' Knuckle Mount
Die-cast aluminum knuckle provides flexibility in mounting from a variety of areas.

Trunnion Mount
Die-cast aluminum trunnion is easily adapted to many surfaces and allows easy fixture aiming angles.

Wall Mount (30W & 45W)
Wall Mount is easy to install for direct wall mounting with 1/2” conduit wiring or standard J-box mounting.

EXTERIOR LIGHTING

Contemporary LED Post Top Fixture

10 Year Warranty

Commercial/Architectural Grade LED post top light fixtures for general exterior lighting applications. Ideal for commercial buildings, condominiums, hotels, museums/galleries, retail stores/plazas, restaurants, etc.

A variety of light output levels and color temperatures are available to accommodate any application or personal taste.

IP66 rated, making them impervious to the elements (water, dust, insects, etc.)

Easy and Fast Installation
Uniform light color consistency
60,000+ hour life - More than 20.7 years operating 8 hours a day, based on L70 standards
High-quality shatter-resistant borosilicate glass lens
Durable housing - Constructed of one-piece rust and corrosion proof heavy-duty cast aluminum housing that is polyester powder coated for long durability and sealed to be free of dirt and insects
Building control compatible - Dusk-to-dawn and occupancy sensor compatible additional energy savings and reduced utility costs

IP66 rated for harsh and wet environments.
