Solid State LED Interior Lighting

A19/A21 Bulbs

Versatile LED replacement bulbs can be used for a multitude of general 60W – 100W+ applications.

Emium LED “A” type bulbs use up to 90 percent less energy than their incandescent equivalents while producing the same or more Lumen output.

A19/A21 bulbs install into standard Edison medium (E26) base sockets and make the transition from fluorescent or incandescent lighting to LED simple and cost-effective.

Emium carries a complete line of products to meet all types of commercial and residential needs.

◆ FEATURES

- Reduce energy consumption and operating costs by 80% or more
- Maintenance free operation - lasts up to 10 to 20 times longer than conventional lighting
- Shatter resistant polycarbonate (PC) cover
- Cool beam - No UV or IR, reduces air conditioning loads significantly
- Environmentally friendly - fully recyclable, no mercury or other hazardous material

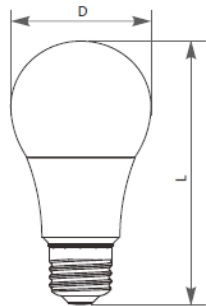

A19

D = 2.36"
L = 4.4"

A21

D = 2.67"
L = 5.27"

25,000 hours rated life
