

### ◆ FEATURES

- Reduce energy consumption and operating costs by 80% or more
- Maintenance free operation - lasts up to 10 to 20 times longer than conventional lighting
- Cool beam - No UV or IR, reduces air conditioning loads significantly
- Environmentally friendly - fully recyclable, no mercury or other hazardous material

# Interior LED Downlight

Downlight fixtures for general applications. Ideal for Offices, Museums, Hotels, Art Galleries, Retail Stores, etc.

Three basic models:

- ✓ Retrofit into existing recessed can (standard and eyeball)
- ✓ Power adjustable model will fit into recessed can or opening (no can required to meet building codes)
- ✓ Equipped with junction box to fit opening (no can required to meet building codes)

Designed and built for commercial use to facilitate a smooth, cost effective transition into the cutting-edge performance and quality of LED lighting. Emium LED downlights are dimmable @120VAC, and provide a clean and modern look with a baffled trim for recessed applications. Fixtures are equipped for use in new construction, remodels, or for easily retrofitting older lighting technology.

Available in a variety of sizes, lumen output levels, and colors to suit any application. Wide beam angle insures uniform illumination.

**50,000 hrs rated life**

**5 Year Warranty**
