

◆ FEATURES

- Reduce energy consumption and operating costs by as much as 75% or more
- Will replace 150W to 600W HPS or MH
- Maintenance free operation - lasts up to 10 times longer than conventional lighting
- Superior thermal management with aluminum PCB and aluminum housing
- IP65 Rated for wet environments
- Environmentally friendly - fully recyclable, no mercury or other hazardous material

High Bay LED Retrofit Lamps

Replacement bulbs suitable for general lighting applications.

Our products are engineered to install into existing infrastructure and fixtures, making the transition from traditional lighting sources simple and cost-effective.

General Specifications:

Input voltage:	100-277VAC 200-500VAC
Light Source:	Seoul Semiconductor LEDs
Color:	Warm White (3,000 Kelvin) Natural White (4,000 Kelvin) Daylight White (5,000 Kelvin)
CRI:	≥ 80 Ra
Beam Angle:	120°
Working Temp:	- 20° to 60° Celsius
Rated Life:	≥50,000 hours

5 Year Warranty

Pending
