

There is a Better Way

LED T5 Tube

Standard Series

WHY UPGRADE WITH EMIUM'S LED T5 TUBE LIGHTS?

Major power savings compared to fluorescent tubes. Up to 70% less power usage dramatically reduces energy costs.

Our LED T5 tubes offer a convenient and inexpensive way to replace existing T5 HO fluorescent tubes with energy saving LED tubes.

Available in various sizes and input types.

FEATURES

- Estimated 50,000 hour LED lifespan
- No infrared rays, no ultraviolet radiation, no thermal effect
- Ultra slim and various dimensions are available
- Soft and wide light emitting
- Compatible with more than 90% of electronic ballasts in North American market.

Recommended Use:

- Homes
- Offices
- Restaurants
- Hotels
- Retail Stores
