## **Emium Lighting LLC Announces Availability of RGB Stadium Lights**

*Personalize your lighting while providing a vibrant and dynamic environment.*

**Lake Zurich, IL— 06/01/2023** — Emium Lighting LLC announces availability of their new RGB Stadium Lights, enabling owners of version G9 to immediately upgrade to the latest release.

“This unit is a game changer in the LED Lighting field: allowing for our customers to color coordinate their lights for holidays or sports teams opens up a whole new avenue of illumination,” said Ana Rabic, Director of Operations, at Emium Lighting LLC.

### **Positive Customer Impact**

Many customers have already benefited from deploying RGB Stadium Lights. A Chicagoland Hotel recently committed to deploying RGB Stadium Lights to their main tower. RGB Stadium Lights will enable this Chicagoland hotel to out-perform their existing equipment, use significantly less energy all while decorating their building in any color imaginable.

“I’m so glad these worked,” said Jim, the Facilities Director. “Now I can really light the place up for the 4<sup>th</sup> of July.”

### **RGB Stadium Lights Availability**
